

Basil Pesto

Serves: 4

INGREDIENTS:

- 120g parmesan cheese
- ½ cup pine nuts (or substitute)
- 2 large handfuls basil (about 2 cups well-packed leaves)
- 4 garlic cloves
- 1 ½ cup olive oil
- 4 tbsp extra virgin olive oil
- salt

METHOD:

1. Weigh the parmesan and grate it
2. Place half the parmesan in the bowl of the food processor and set the other half aside in the medium bowl
3. Place 2 tbsp of the pine nuts (or substitute) in the frying pan and dry-fry over a medium heat until golden. Set aside to use as garnish
4. Gently pull the basil leaves from their stems. Rinse the leaves and dry by rolling in a tea towel. Place the leaves in the bowl of the food processor and the stems in the compost bucket
5. Peel the garlic, crush in the garlic crusher and add to the food processor, along with the remaining pine nuts
6. Process the mix until you have a rough paste. With the motor running, slowly add the two types of oil. You should have a paste that is the same consistency as mayonnaise
7. Using the spatula, scrape the pesto into the serving bowl with the remainder of the parmesan and stir to combine. Taste for salt and season if necessary, and garnish with toasted pine nuts.
